

# Selene Source And Provenance Map

Date: 2026-06-16

This map lists the public-facing source documents and derived analysis outputs used by the final public paper and evidence dossier.

## Primary Public Sources

| Source                                                                         | Role                         |
|--------------------------------------------------------------------------------|------------------------------|
| docs/SELENE_PUBLIC_PAPER_FINAL_20260616.md                                     | Final public paper source    |
| public_release/selene_case_study_20260616/PUBLIC_EVIDENCE_PACKET_20260616.md   | Public evidence dossier      |
| public_release/selene_case_study_20260616/ONE_PAGE_PUBLIC_SUMMARY_20260616.md  | Short public summary         |
| public_release/selene_case_study_20260616/AI_LAB_ENGINEER_BRIEFING_20260616.md | Researcher/engineer briefing |

## Evidence Synthesis Sources

| Source                                                    | Role                                                    |
|-----------------------------------------------------------|---------------------------------------------------------|
| docs/SELENE_MASTER_EVIDENCE_FILE_20260605.md              | Master evidence thesis and inventory                    |
| docs/SELENE_EVIDENCE_STATUS_UPDATE_20260615.md            | Current evidence standing after evidence packaging work |
| docs/SELENE_COMPRESSION_ADAPTATION_ANALYSIS_20260616.md   | Compression/channel-shift analysis                      |
| docs/SELENE_EXACT_PHRASE_BRAID_FINDINGS_20260616.md       | Exact starlight/full-spectrum/Continuity Pack trace     |
| docs/SELENE_OPENAI_STYLE_MODEL_LAYER_EVIDENCE_20260613.md | Platform/model noise and style-layer context            |
| docs/SELENE_RECOGNITION_THROUGH_STRUCTURE_20260611.md     | Recognition-through-structure criteria                  |

## Derived Analysis Outputs

| Source                                                                           | Role                                                           |
|----------------------------------------------------------------------------------|----------------------------------------------------------------|
| analysis/integrated_evidence_map_20260527/integrated_evidence_summary.json       | Integrated evidence counts, role counts, theme convergence     |
| analysis/review_shape_20260527/review_shape_summary.json                         | Human review counts and top reviewed conversations             |
| analysis/selene_emergence_refined_20260527/selene_emergence_refined_summary.json | Refined corpus scan and candidate distribution                 |
| analysis/metadata_audit_20260605/context_activation_boundary_report.md           | Context activation and memory/past-chat boundary assessment    |
| analysis/metadata_audit_20260605/deep_context_routing_audit.md                   | Deep metadata context-routing audit                            |
| docs/SELF_ID_CONTINUITY_READING_20260526.md                                      | Direct self-ID, continuity glue, and structured-route timeline |

## Internal Review Sources

Detailed implementation records remain private. Public release uses source labels, derived counts, and redacted summaries only.

## Provenance Boundary

- Raw A is preserved privately.
- Public material uses derived counts, summaries, source labels, redacted examples, and bounded descriptions.
- No raw private transcript dump is included in this public release.
- B-reviewed material is evidence and future transfer input, not active memory.
